Safety area means a designated area abutting the edges of a runway or taxiway intended to reduce the risk of damage to an aircraft inadvertently leaving the runway or taxiway.

Wildlife hazard means a potential for a damaging aircraft collision with wildlife on or near an airport. As used in this part, "wildlife" includes domestic animals while out of the control of their owners.

[Doc. No. 24812, 52 FR 44282, Nov. 18, 1987; 53 FR 4258, Feb. 12, 1988, as amended by Amdt. 139–16, 54 FR 39295, Sept. 25, 1989]

§ 139.5 Standards and procedures for compliance with the certification and operations requirements of this part.

Certain requirements prescribed by subparts C and D of this part must be complied with in a manner acceptable to the Administrator. FAA Advisory Circulars contain standards and procedures that are acceptable to the Administrator for compliance with subparts C and D. Some of these advisory circulars are referenced in specific sections of this part. The standards and procedures in them, or other standards and procedures approved by the Administrator, may be used to comply with those sections.

Subpart B—Certification

§ 139.101 Certification requirements: General.

(a) No person may operate a land airport in any State of the United States, the District of Columbia, or any territory or possession of the United States, serving any scheduled passenger operation of an air carrier operating an aircraft having a seating capacity of more than 30 passengers without an airport operating certificate, or in violation of that certificate, the applicable provisions of this part, or the approved airport certification manual for that airport.

(b) Unless otherwise authorized by the Administrator, no person may operate a land airport in any State of the United States, the District of Columbia, or any territory or possession of the United States, serving any unscheduled passenger operation of an air carrier operating an aircraft having a seating capacity of more than 30 passengers without a limited airport operating certificate, or in violation of that certificate, the applicable provisions of this part, or the approved airport specifications for that airport.

[Doc. No. 25698, 55 FR 48214, Nov. 19, 1990]

§ 139.103 Application for certificate.

- (a) Each applicant for an airport operating certificate or a limited airport operating certificate must submit an application, in a form and in the manner prescribed by the Administrator, to the Regional Airports Division Manager.
- (b) The application must be accompanied by two copies of an airport certification manual or airport certification specifications, as appropriate, prepared in accordance with subpart C of this part.

[Doc. No. 24812, 52 FR 44282, Nov. 18, 1987, as amended by Amdt. 139–16, 54 FR 39295, Sept. 25, 1989]

§ 139.105 Inspection authority.

Each applicant for an airport operating certificate or a limited airport operating certificate must allow the Administrator to make any inspections, including unannounced inspections, or tests to determine compliance with—

- (a) The Federal Aviation Act of 1958, as amended; and
 - (b) The requirements of this part.

§ 139.107 Issuance of certificate.

- (a) An applicant for an airport operating certificate is entitled to a certificate if—
- (1) The provisions of §139.103 of this subpart are met;
- (2) The Administrator, after investigation, finds that the applicant is properly and adequately equipped and able to provide a safe airport operating environment in accordance with—
 - (i) Subpart D of this part, and
- (ii) Any limitations which the Administrator finds necessary in the public interest; and
- (3) The Administrator approves the airport certification manual.
- (b) An applicant for a limited airport operating certificate is entitled to a certificate if—
