Judge and Commissioners;

We wanted to share this email from Aqua Water with each of you. We have strived hard to employ the best available talent, individuals and businesses so that Central Texas Airport at Green Corporate Centers will be an example of proper planning and implementation through the development process. This recognition of our efforts is much appreciated and we will continue in our efforts to exceed expectations and deliver a regional infrastructure asset for Bastrop County and its communities.

We have made excellent progress with both Aqua and Bluebonnet Electric which were among the final hurdles that we need cleared to launch development of CTA. We hope to soon have a major announcement that will accelerate the Green Corporate Centers component side of the master project. We will keep you informed of our progress. Once again we thank each of you for your support of this project. We believe that your collective vote of confidence will yield big dividends for Bastrop County and its residents.

Best regards;

Jim Carpenter
Chairman of the Board & CEO
